1 Our Green Friends

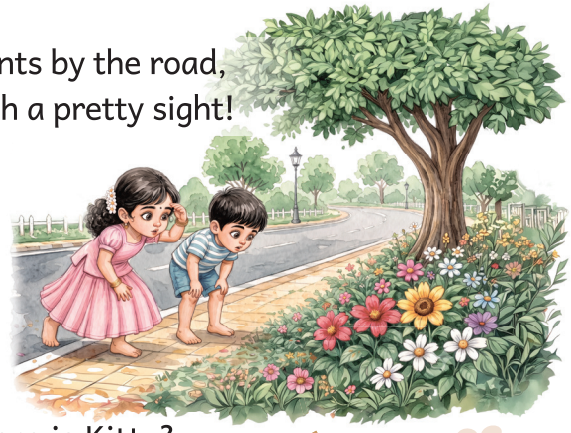

Plants Everywhere!

Observe and Discuss

Where can we find plants?

Madhu and Mugil are playing in front of their house with their kitten. Kitty suddenly jumps and runs away! They walk around looking for Kitty and see plants everywhere.

Plants by the road,
such a pretty sight!

Where is Kitty?

Plants in the pond,
floating so light!

Where is Kitty?

Plants in the fields,
growing day by day!

Oh, Kitty is not here.

Plants in the garden,
colours everywhere!

Where is Kitty?

Look! Someone is here...
Is it our Kitty? Here she is!

Plants grow in different places around us.

THB

Encourage children to observe the pictures and discuss where they have seen plants in their daily life.
