Do and Learn

1. Measure and Compare: Divide children into groups. Give each group one green leafy plant. Ask them to measure the parts using an eraser and record them in the table.

Observation	Eraser count
Root length	
Stem length	
Leaf length	

No. of leaves on a stem: _____

Discuss: Compare your eraser count with your friend's. Are they the same in all the plants?

Tick (✓) the longest part of your plant

1. Root ◯ 2. Stem ◯
3. Leaf ◯

All plants have roots, stems and leaves,
but their colours, shapes and sizes are different.

How does water reach the leaves and flowers?

2. Let us find out!

Materials Required: Plastic/glass cup, Water, One straw for each child

Take a plastic/glass cup with drinking water.

Place one end of the straw in the water.

Gently suck the water up through the straw and observe.
